Patent Protected 6,832,770 B1

KidWalk EI exclusive features include:

- Low seat height for clients with minimal leg length starting at 8" and less.
- Smaller seat configuration to more comfortably fit the smaller client.
- Lateral supports are able to mount low for the client with a shorter trunk.
- Exclusive semi rigid Soft Lateral System for maximum support with minimum hardware.
- All support systems configured to fit to the younger/smaller client population.
- 16" Wheels keep hands away from the wheels.
- KidWalk EI support systems are designed to fit the Early Intervention population.
- Many of the larger KidWalk support systems will interchange to support client growth.
- Modular construction for the ability to change as the client's needs change.
